Description

A mountainous region where nature is omnipresent, our High Jura villages invite you to hike all summer long on the waymarked paths to discover traces of a chamois or a viewpoint from our fully-equipped belvederes just around the corner. Cyclists won't be disappointed as the Longchaumois Bike Park, the Morbier Ludy Park and the many circuits on offer will please the whole family. For thrill seekers, the Morez via ferrata and the 3 Commères climbing site offer dizzying sports activities atop our rocky mountains!

During the winter season, our family village resorts offer a wealth of snow activities: cross-country and downhill skiing, an initiation in the biathlon, snowshoeing, a meet with sled dogs, tobogganing and hiking... So many activities to unwind in the great outdoors!
