*Cyclamen Vacances accommodates groups for full board or accommodation alone.*

## Useful information

Category : Valeurs Parc

Type : Accommodation food & drink

Categories : Holiday villages & centres

# Description

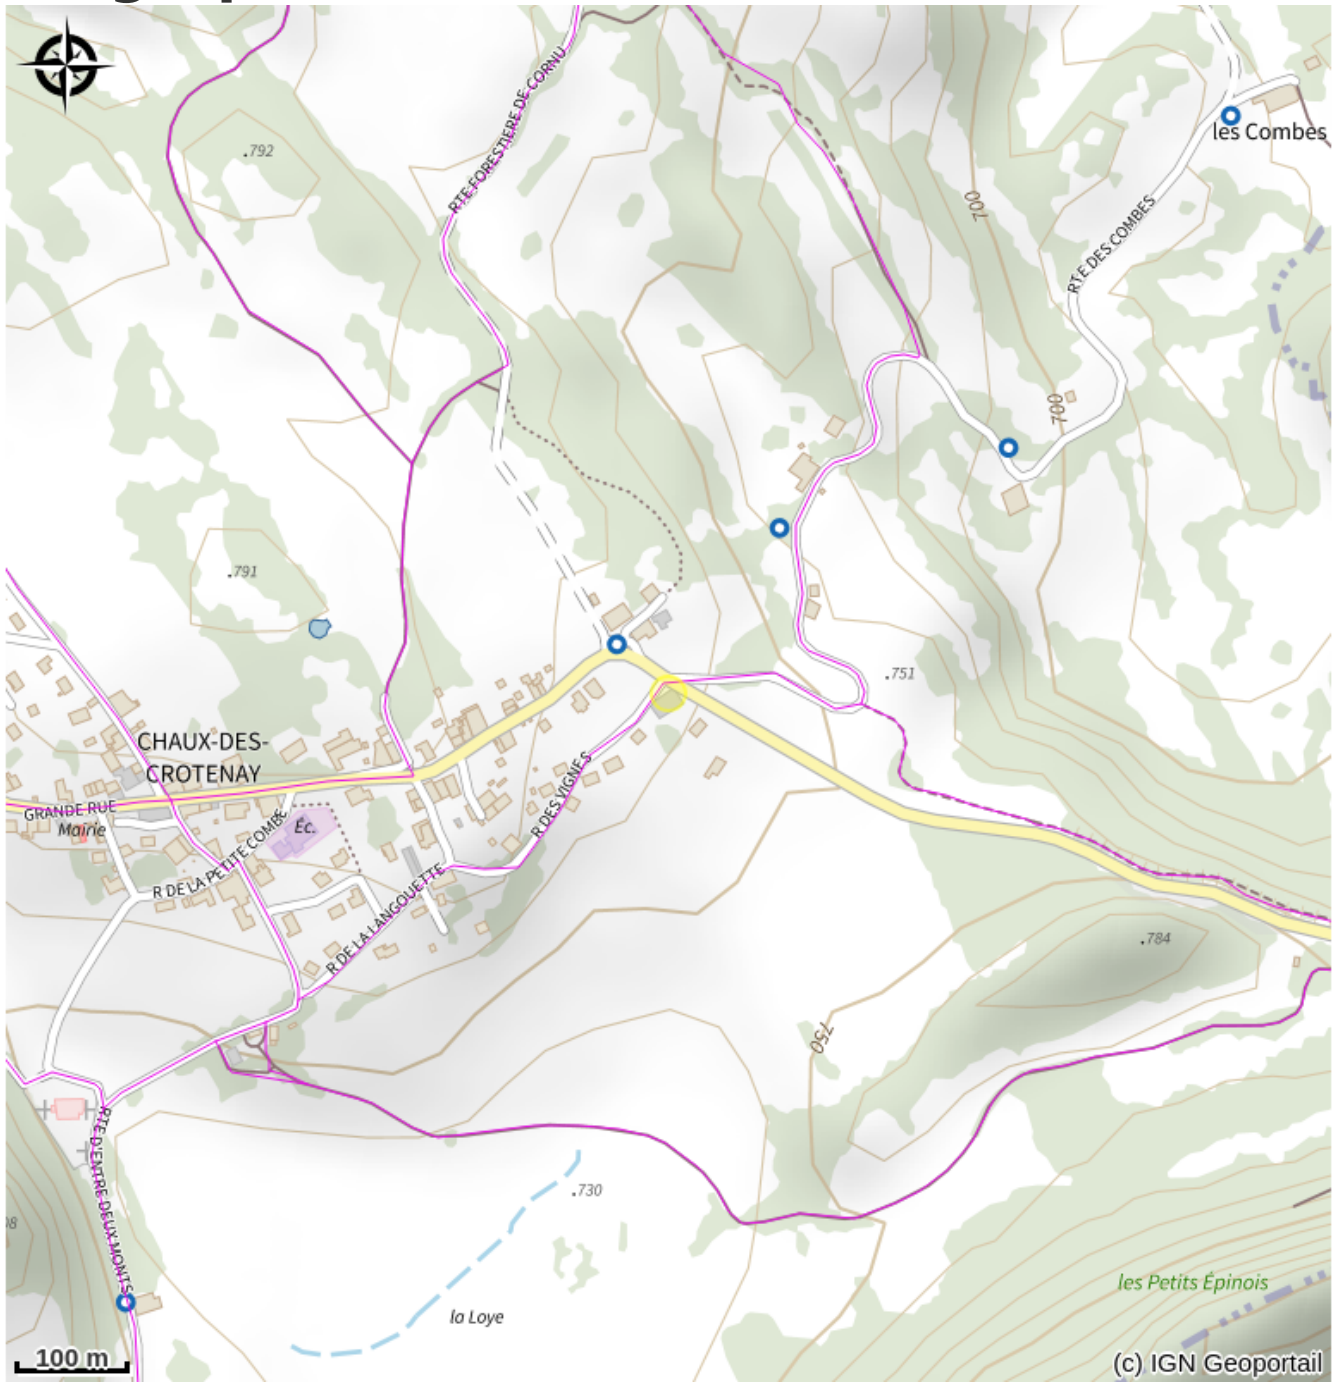

The Cyclamen holiday centre accommodates groups and also offers the rental of gîtes for accommodation alone. The restaurant offers simple family cuisine. Dishes are homemade using mainly fresh and seasonal produce!

The centre's team is committed to adopting a solid eco-friendly approach: installation of eco-friendly equipment (pellet boiler, water reducers, ozone washing machine, etc.), healthy food (organic cereals, favouring seasonal fruit and vegetables, free-range eggs, homemade dishes, etc.), raising environmental awareness among visitors and staff...

In terms of leisure activities, the entertainers working for the centre offer a multitude of fun and/or sports activities on the doorstep and in the area.

In winter, Nordic activities are offered: snowshoeing, cross-country/slope skiing, sledding, biathlon, etc. During the summer season, you may practice activities such as climbing, orientation games, archery, zip lining, mountain biking, caving and of course hiking! A closed outdoors area will allow you to play tennis, basketball, volleyball and pétanque. A lounge with a table football and a ping-pong table is also available.
